9/13/85

Dear Jim,

What appears to be the entire basis for the allegation of a mafia operation in the JFK assassination is an FBI record disclosed to Mark Allen 9/4/85. It is the NO survey of vice and corruption in the major cities within its turf.

"These (D & A Clubs) clubs, which are handbooks only, are operated by Dutz Murrett at 128 Chartres Stret and 837 Iberville Street." (5/6/44)

So Oswald's uncle was into handbooks! That sure made him a <u>big</u> wheel in the <u>mafia</u>, didn't it?

And, of course, always and exclusively, handbooks = mafia, doesn't it?
